CONF supplies customers with fresh and safe food products and pursues the convenience of living. In 2011, CONF started the business of cafe potion, which realizes the flavor and aroma of coffee beans to become a smart food company that prioritizes the health and living convenience of the customers. The company has also expanded its business into various products, including red ginseng potion(Hong Cheong Chun), which uses red ginseng-a representative health food-healthy tea (honey citrus, honey jujube, and honey ginger), ade (grapefruit, lemon), and pomegranate collagen.

CONF is expanding and operating its business by developing products from various companies, including famous coffee franchises such as Tom & Toms, Cafe Bene, Coffine Gurunaru and Twosome Place.

Real Pomegranate Collagen Potion

Recently, amid the rapid growth of the inner beauty market, the demand for health functional foods in Korea continues to grow year after year. Pomegranate and collagen, which are effective for skin beauty, are the nation's first product that can be simply consumed in the form of one-touch potion. It is a product that can easily be consumed regardless of age or gender, supplementing collagen and estrogen, which decreases with age, especially for women.
