An alkali ionized water product based on oyster shells and the natural minerals extracted from seaweeds

Eco-friendly materials

Rich in mineral

Proven cleaning performance

0%

Zero chemical materials

Why you can trust Pet Minecal Water

## CHECK POINT!

- ✓ In oyster shell Using natural calcium  
Very safe material
- ✓ Chemical composition, artificial fragrance,  
Surfactant free Organic products
- ✓ The product enhances the immunity of the gastric  
and intestinal organs to remove the toxins inside  
your pet and enhances its immunity to prevent illness.

## A great transformation for oyster shells!

Our products are made from a natural ingredient, which is the shells of oysters, making the product even healthier and safer

Contains a good amount of **Ca, Mg, K, and Zn** as a result of absorbing

the rich calcium in sea water

**1300 °C** high temperature electrolysis process

The shells of oysters are made from the accumulation of the tiny amount of calcium contained in sea water. With our special process, we treat them in a high temperature of 1,300 degrees, converting the material to Water soluble mineral alkali ionized water, which contain a good amount of minerals.

# Does my **pet** have toxins in its body?

---

## CHECK 01

The active substance of **Pet Minecal Water** is  
**'Mineral ionized calcium'**

<h3>Safety</h3> <p>certified by the US FDA safety test!</p>	<h3>Ionized calcium</h3> <p>Good amount of ionized calcium, like Ca, Mg, K, and Z, etc.</p>
<h3>Safe ingredients</h3> <p>no chemicals no artificial flavors, no surfactants used.</p>	<h3>Natural ingredients</h3> <p>Food additive made from 100% natural ingredients that are safe to eat.</p>

## CHECK 02

Why should I feed **healthy water**?

 Reduces cholesterol	 Removes ammonia
