Building Area	6,336.00 m <sup>2</sup>
	Under Construction 2022. July. ~ 2023. September. (Expected)

# IQF (Individual Quick Frozen)

*Our products are produced by IQF to maintain the freshness and original taste.*

Common examples of IQF foods are fruit like blueberries, strawberries and peaches; vegetables like corn, peas and green bean; seafood like shrimp and scallops; or poultry like individual chicken breasts. Even whole poultry such as frozen turkeys are processed using the IQF method.

It is also called flash-freezing, the IQF method involves sending the individual food items on a sort of conveyor belt into a blast chiller that freezes the item very quickly.

Because the food items are separate when they go in, they stay separate after they've been frozen

# FARMJOA MEALKIT SERIES

*Simple cooking set packed with separated ingredients for easy cooking and eating!!*
