Global health care company, FromBIO
Cultivating healthy life for humankind

We, FromBIO have pioneered the Korean healthcare market through health functional foods using individual recognized ingredients that have been recognized for their functionality.

Furthermore, we have expanded our business to include an anti-aging-focused cosmetic brand called 'Mastina', which utilizes high-quality healthy ingredients, as well as daily consumer products.

FromBIO manufactures functional health foods in our state-of-the-art GMP facility and has made significant investments in research and development, including the establishment of the Food Research Laboratory, Bio Research Laboratory, and Medical Research Laboratory, to contribute to the continuous advancement of scientific knowledge and development in our field.

With a vision to extend our services beyond Korea and enter international markets, FromBIO is committed to becoming a global leader in healthcare through ongoing R&D investments and ventures.

Thank you.

CEO Tae Jin Shim
FromBIO Co., Ltd.

Challenge

We explore new fields and bring change with determination and willingness to take on new challenges.

Honesty

We only provide reliable products that can be safely consumed by consumers as we stick to safe ingredients.

Value

We aim to become a company that contributes to social advancement by promoting win-win relationships with local communities to achieve social worth and carrying out value-oriented actionable activities such as environmental conservation work.

FromBIO Facilities

In our pursuit of becoming a global healthcare leader, FromBIO is dedicated to identifying and researching functional ingredients for the development of new medicines. Additionally, we specialize in producing high-quality functional health supplements. Through ongoing research and development initiatives, we leverage our exceptional talent and abundant resources in state-of-the-art manufacturing facilities.

One of our notable manufacturing facilities, the GMP Factory, is responsible for producing functional health foods, including The Jinhan Red Ginseng Stick (concentrate) made with 6-Year-Old Red Ginseng. We take immense pride in our ability to deliver quality products, which undergo thorough quality inspections to ensure excellence. Furthermore, we have established the FromBIO Logistics Center, which was completed in 2022, to provide efficient logistics services and ensure prompt delivery to our valued customers.
