항목	내용
Corporation	KOREA BIO MEDICAL Co.,Ltd.
C.E.O.	YUN HYANG, PARK
Mission	Driven by a commitment to a cleaner planet, we develop products that enable both social and personal environmental sustainability.
Vision	A leading eco-friendly manufacturing company committed to producing honest and safe products.
company	<p>KOREA BIO MEDICAL CO., LTD. Specializes in OEM and ODM production of medical devices, cosmetics, and household products. Our main products include medical devices such as Skin Boosters, Fillers, and Microneedle Therapy System(MTS); cosmetics such as functional skincare and body care; and household products such as Detergent-Infused All-Purpose Cleaning Wipes for home shopping and One-Step Dishwashing Wipes.</p> <p>The medical device division manufactures premium ampoules based on human-derived stem cell cultures, along with seven ampoules for skin regeneration, at a directly operated factory certified for medical device manufacturing.</p> <p>In addition to general skincare, we also develop functional cosmetics, including nail nutrition solutions, and manufacture a variety of mask packs. In the household goods division, our flagship product, a detergent-in-one cleaner sold on Korean home shopping channels, is so functionally superior that we have developed an export-only version.</p> <p>We manufacture a wide range of products, from high-quality products to practical, everyday products, through OEM and ODM services.</p>
Value	We create safe, nature-friendly products that are biodegradable, which significantly reduces waste and eliminates the risk of microplastic contamination, thereby removing potential health risks to humans. Furthermore, by choosing our products, we help solve the problem of global warming caused by CO ₂ emissions from incineration and prevent soil desertification caused by non-decomposable landfill waste.
History	<p>2012 - Feb: Company incorporated.</p> <ul style="list-style-type: none"> - Apr: Signed a production contract for Baby Organic wet wipes with a baby products company. - Jun: Signed an MOU with BMC on eco-friendly industries and antibacterial non-woven fabric patents. - Nov: Established two new production lines for cosmetics and face masks at Eco-Pack Korea's factory. <p>2013 - Apr: Patented and mass-produced detergent kitchen wipes.</p> <p>2014 - Jun: Established Factory #2 for mask production in Jeongnam, Hwaseong, Gyeonggi-do (Certified as a women-owned business).</p> <p>2016 - Jun: Launched six types of The N, SKIN face masks, hand packs, and foot packs.</p> <p>2017 - Apr: Expanded into K Shopping web dramas and T-commerce (ISO 22716: Global CGMP certification).</p> <p>2018 - Jun: Signed an export contract for The N, SKIN face masks to India (Patent registration for mask manufacturing method).</p> <p>2019 - Dec: Launched Querencia cotton dishcloth on GS Home Shopping (with Paxtrade).</p> <p>2020 - Mar: Exported antibacterial spray to Japan via OEM for General Networks.</p> <ul style="list-style-type: none"> - Jun: Obtained manufacturing license for quasi-drugs and established Factory #3 in Bongdam, Hwaseong, Gyeonggi-do. - Jul: Contracted and supplied KF-AD masks to General Networks. <p>2021 - Feb: Launched Querencia detergent scrubbers on GS Home Shopping (with Paxtrade).</p> <p>2022 - Jun: Launched Blurreno detergent scrubbers (with Patchee, an influencer).</p> <ul style="list-style-type: none"> - Jul: Certified as a Corporate R&D Center and Main-Biz. - Aug: Signed an MOU for detergent scrubbers with a Russian home shopping channel, obtained a medical device manufacturing license (from the Ministry of Food and Drug Safety). <p>2023 - May: Developed medicated cosmetics and medical device MTS (microneedle therapy system).</p> <ul style="list-style-type: none"> - Nov: Changed the company name to Korea Biomedical Co., Ltd. <p>2024 - Jan : Established the PLA (Polylactic Acid) Business Division.</p>

One-Step Dishwashing Wipes!

- An innovative product that combines a detergent and a sponge in one.
- Just add water to create a rich lather, allowing you to easily wash dishes without any extra detergent.
- The hygienic pull-out wipe format allows for single-use, so you can clean with confidence without worrying about germs.
- It's not just for kitchenware! Use it conveniently for camping, travel, office, and more.

- Type 1, Food-Grade Dish Detergent Safe for Fruits and Vegetables.
- Double-Sided Embossed Design for Rich Foam and Powerful Cleaning.
- Free from Harmful Substances (Safety Tested).
- Contains Aloe Vera Extract for Skin Protection and High Moisturizing Effect.
- Convenient and Hygienic Single-Use, Pull-Out Product.

You can clean with confidence
without worrying about germs.

The sponge you're using at home right now...
It's a sponge crawling with germs.
More than a billion germs are living inside your sponge
and they're not going anywhere.

The only way to eliminate these germs,
which survive even after boiling,
is to replace your sponge with a new one every day.

Free from Heavy Metals and Fluorescent Whitening Agents.

Free from Endocrine Disruptors.
