Agarwood Energy Ball for the No

Brand Story

"Live in an awesome way,
with perfect health and beauty"

It reminds me of the youth and energy of
those passionate times.

There was a time when I was busy and caught up
with so many different things.

Then I felt lost ...

However, there came a point in my life
where my health problems forced me to give up my career;

A struggle to restore my health;
All of this gave birth to "Myeongwondam"

With the hope no one experiences the pains that I went through,
it contains out my genuine wish,
'I hope the effects I've enjoyed work for others as well.'

Our mission is for you
to regain your youth and be full of energy.
It's more than just taking red ginseng products.

Is it really good?

Review

Reviews from the blind test

Of course!! It's really yummy and nutty. I can't taste red ginseng's bitterness at all. I didn't even notice that it had red ginseng in it.

Enjoy it by pouring water, milk, or soy milk into the pouch and shaking it well!

Korean Red Ginseng Achyranthes Slices
