

The background of the slide features a close-up photograph of three ripe, orange-colored fruits, likely persimmons, hanging from a tree. The fruits are round and have a smooth, slightly glossy texture. They are surrounded by vibrant green leaves, some of which are in sharp focus while others are blurred in the background, creating a sense of depth. The lighting is natural, highlighting the warm tones of the fruit.

Strawberry

■ There are about nine kinds of Korean strawberries, but most of the most commonly produced species are gold thread, hawk, and snowflake, and in the case of snowflakes, strawberry-specific sweetness, freshness, and softness are well harmonized. It is also good for your health, and contains 62 milligrams of vitamin C per 100 grams, which is higher than lemon. It is sweet, but the actual amount of the party is much smaller. Strawberries in Korea are produced from December to April due to their large daily temperature range. Therefore, it boasts the world's best quality, including a high sugar content and a solid texture and a sweet and sour taste.

■ Packaging 2kg (500g*4 pack) is a basic box, and it is packed in a plastic pack and packaged once more in a paper box.

■ Expiration date: 10 days (freezer distribution)

■ Product Status: Best Products

■ Package status: 1 box (2kg)

■ Fresh strawberries (2 kilograms) have a short shelf life (~10 days) and are exported only by air. For other fruits of this seller, please visit the vendor's website for details.

Pear

■ In Korea, they grow mainly southern Asian pear, Singo, Wonhang, etc. The pear is about 80% edible of the fruit, 85 to 88% moisture and about 50 kcal calories. Alkaline food, whose main ingredients are carbohydrates, contain 10 to 13% sugar (fructose and sucrose), organic acids such as apple, tin, citric acid, and vitamins B and C, fiber and fat. Also, it is effective for bronchial diseases, so it is good for cold, relieving, and asthma, and helps bowel movements and diuresis. It removes phlegm and coughs, relieves symptoms when your throat is hoarse or when your stomach is cold and sore, and also helps treat abscesses. Other detoxification effects eliminate hangovers. Eat raw or make juice, canned food, jam, boiled food, etc. Especially, Baejam is used as ingredients for various dishes because it goes well with various foods. It contains softening enzymes, so it can be ground and added when the meat is tender.
